

Labor market information for students

Labor Market and Economic Analysis

You're a student trying to research what job skills or training you need for the top 25 jobs by 2025. How do you find the right labor market information for now and the future? The labor market refers to the supply and demand for labor, in which employees provide the supply and employers provide the demand.

Our online tools and research information can help you learn about occupations, explore careers, find out about available training and needed skill sets.

Making decisions on where to work or study? We also provide county profiles and labor area summaries that can give you even more information, such as demographics, to help you plan.
