In second quarter 2019, April to June, seasonally adjusted job gains in Washington’s private sector totaled 190,042 while job losses from businesses closing or contracting totaled 164,526. The result of these changes was a net gain of 26,416 jobs during the second quarter. These numbers show the key changes in private sector employment, also called Business Employment Dynamics (BED).

The U.S. Bureau of Labor Statistics’ Business Employment Dynamics data series highlights the forces driving labor market dynamics at the state and national levels. Job gains and losses at private business establishments are tracked showing employment changes due to establishment openings or closings versus adding or shedding jobs at existing firms. The most recent BED data cover events through second quarter 2019.
Net job gains increase for the state but decrease for the nation from the previous quarter

Nationally, job gains exceeded job losses in 26 states for a net private sector employment gain of 182,000. The jobs gained during the second quarter was less than the 525,000 jobs gained during the previous quarter. Washington state gained 26,416 jobs. With the increase, Washington has now added jobs in every quarter since 2009 but one.

Figure 1 depicts the changing business employment dynamic and compares Washington state to national trends. On a national and state basis, net job gains and losses are sensitive to the business cycle. During the 2001 recession, net job losses appeared very quickly. Net job growth resumed in 2002 and carried through until the most recent recession beginning in fourth quarter 2007. Job growth began to pick up in 2010 for the state and nation, and continued for both every quarter until Washington experienced negative net job gains in the third quarter of 2018.

Figure 1. Net change in jobs, seasonally adjusted
United States and Washington state, second quarter 2001 through second quarter 2019

At the national level, gross job gains were 7.6 million at opening and expanding establishments. Closing and contracting establishments lost 7.4 million jobs. Gross job losses were 6.0 percent of private sector employment. Opening establishments provided 1.4 million jobs. Washington state gained 190,942 jobs from new and expanding private businesses and lost 164,526 jobs from businesses closing or contracting for a net gain of 26,416 jobs in second quarter 2019. This compares to a net gain of 15,967 jobs in first quarter 2019 and a net gain of 24,720 jobs in second quarter 2018.

Figure 2 shows the quarterly pattern of gross job gains and losses in Washington state.

**Figure 2.** Gross job gains and losses, seasonally adjusted
Washington state, second quarter 2001 through second quarter 2019

Gross job gains rose faster than did gross job losses in second quarter 2019.

Note: Shaded areas are U.S. recession periods

**Nationally, more industries added jobs than lost jobs**

The data in Figure 3 illustrate the net change in industry employment for the U.S. Total private sector employment rose by 182,000 in second quarter 2019. Service-providing industries had a seasonally adjusted net gain of 161,000 jobs and goods-producing industries posted a net gain of 21,000 jobs. In second quarter 2019, eight industry sectors reported job gains compared with nine reporting gains during second quarter 2018.

**Figure 3.** Net change in job gains and losses by industry sector, seasonally adjusted
United States, second quarter 2019

Professional and business services reported the most net gains while retail trade reported the most net losses in second quarter 2019.
**Washington state industry employment**

*Figure 4* shows net employment changes in Washington state industry sectors. Total private sector employment had a net increase of 26,416. Ten industry sectors reported net job gains in second quarter 2019 and one industry sector showed job losses. The top three industry sectors showing job gains were professional and business services with a gain of 4,907, followed by information (3,324) and education and health services (2,872).

The only industry that experienced job losses was transportation and warehousing (-135).

*Figure 4.* Net change in job gains and losses by industry sector, seasonally adjusted
Washington state, second quarter 2019

Comparing second quarter 2019 to second quarter 2018 in Washington state (*Figure 5*):

- Four of 11 private industry sectors had higher net gains from second quarter 2018 relative to second quarter 2019.
- Education and health services had the largest net gain from year to year with a gain of 2,872 jobs in second quarter 2019 compared with a gain of 1,750 in second quarter 2018.
- Leisure and hospitality had the largest net decline from year to year with a gain of 1,729 jobs in second quarter 2019 compared with a gain of 3,657 in second quarter 2018.
